1 Find the following words in the wordsearch then write brief answers to the questions.

- a) **Cliff** – on which side of a river bend is this? _____
- b) **Waterfall** – which is the world’s highest one of these? _____
- c) **Stack** – does this form before or after an arch? _____
- d) **Spit** – is this an erosion or deposition landform? _____
- e) **Gorge** – does this landform have gentle or steep sides? _____

If you need help look at these pages in the pupil book:
a) page 12, b) page 10, c) page 14, d) page 15, e) page 10.

2 Find the words in the wordsearch that match these definitions. They all read backwards from the right.

- a) _____ is a type of weathering that happens in cold places.
- b) _____ is something which spoils our surrounds.
- c) _____ is the scenery of a place.
- d) _____ is a flat area of land either side of a river.
- e) _____ are bends on a river.

3 There are five **downwords**. Find them then give a meaning for each one. Check your answers by looking at pages 4, 6, 7 and 9 in the pupils’ book.
